

**Information about**

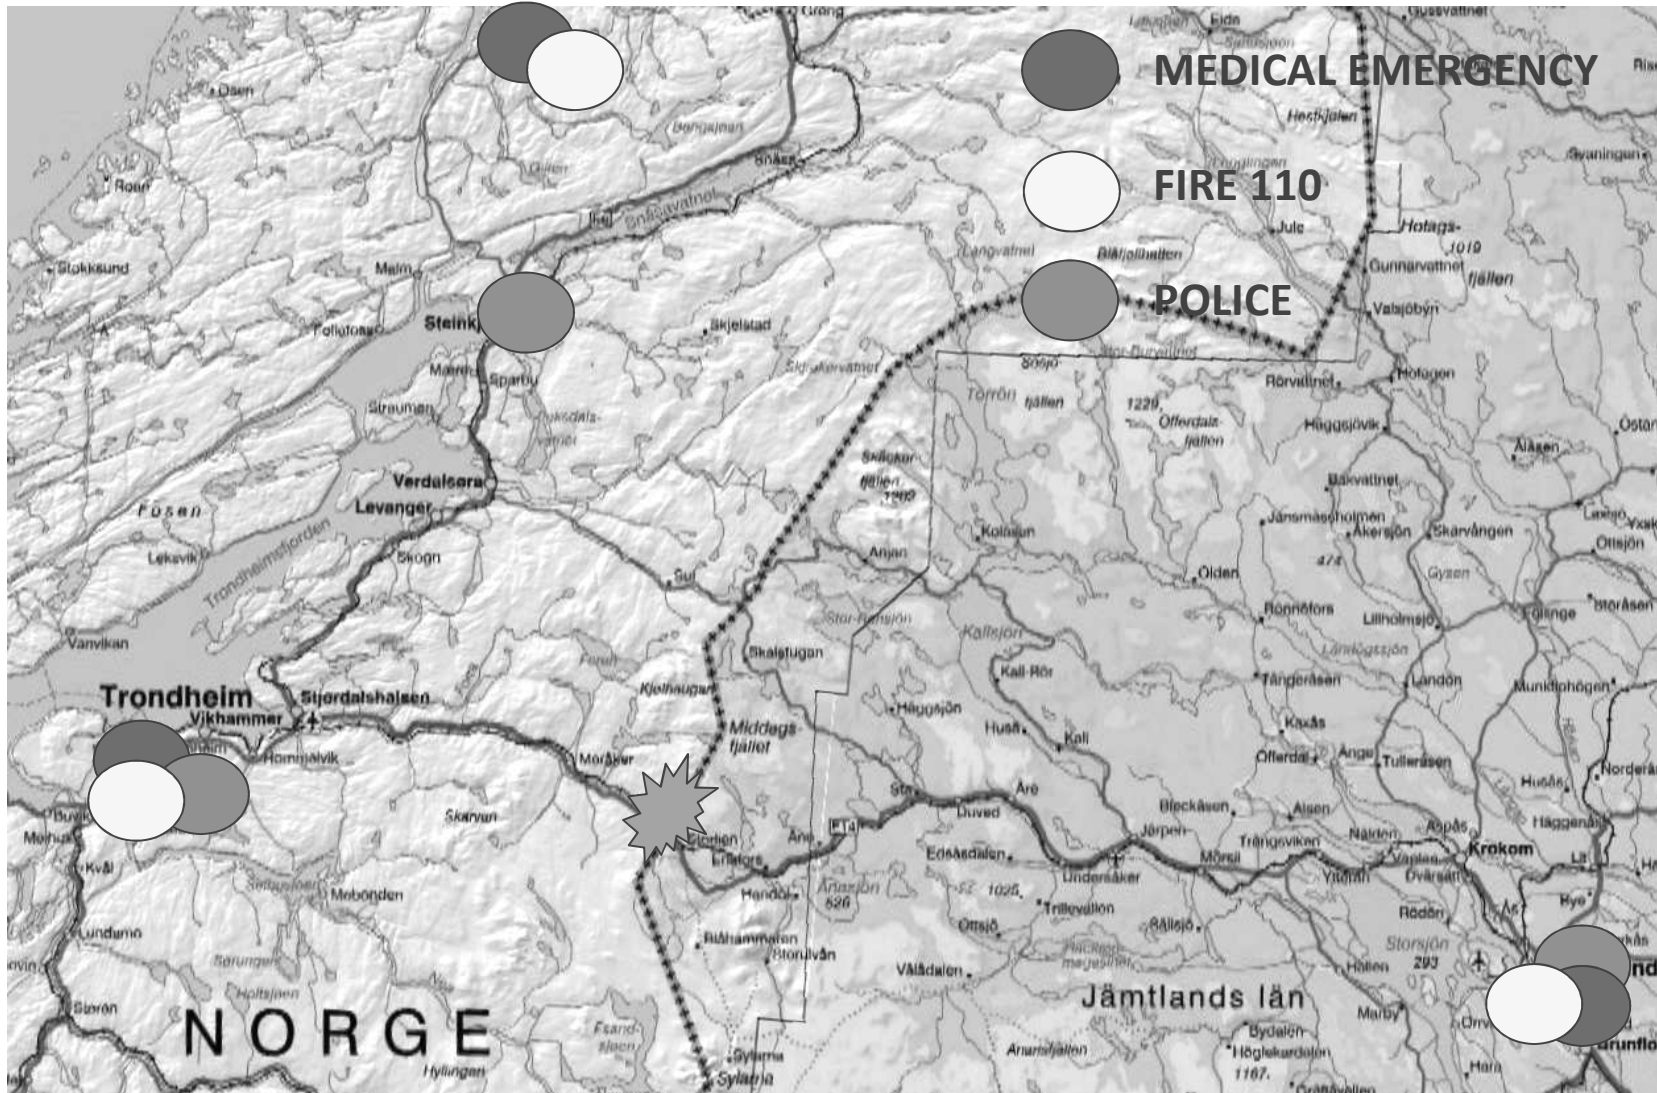

# **ISI – exercise 2016**

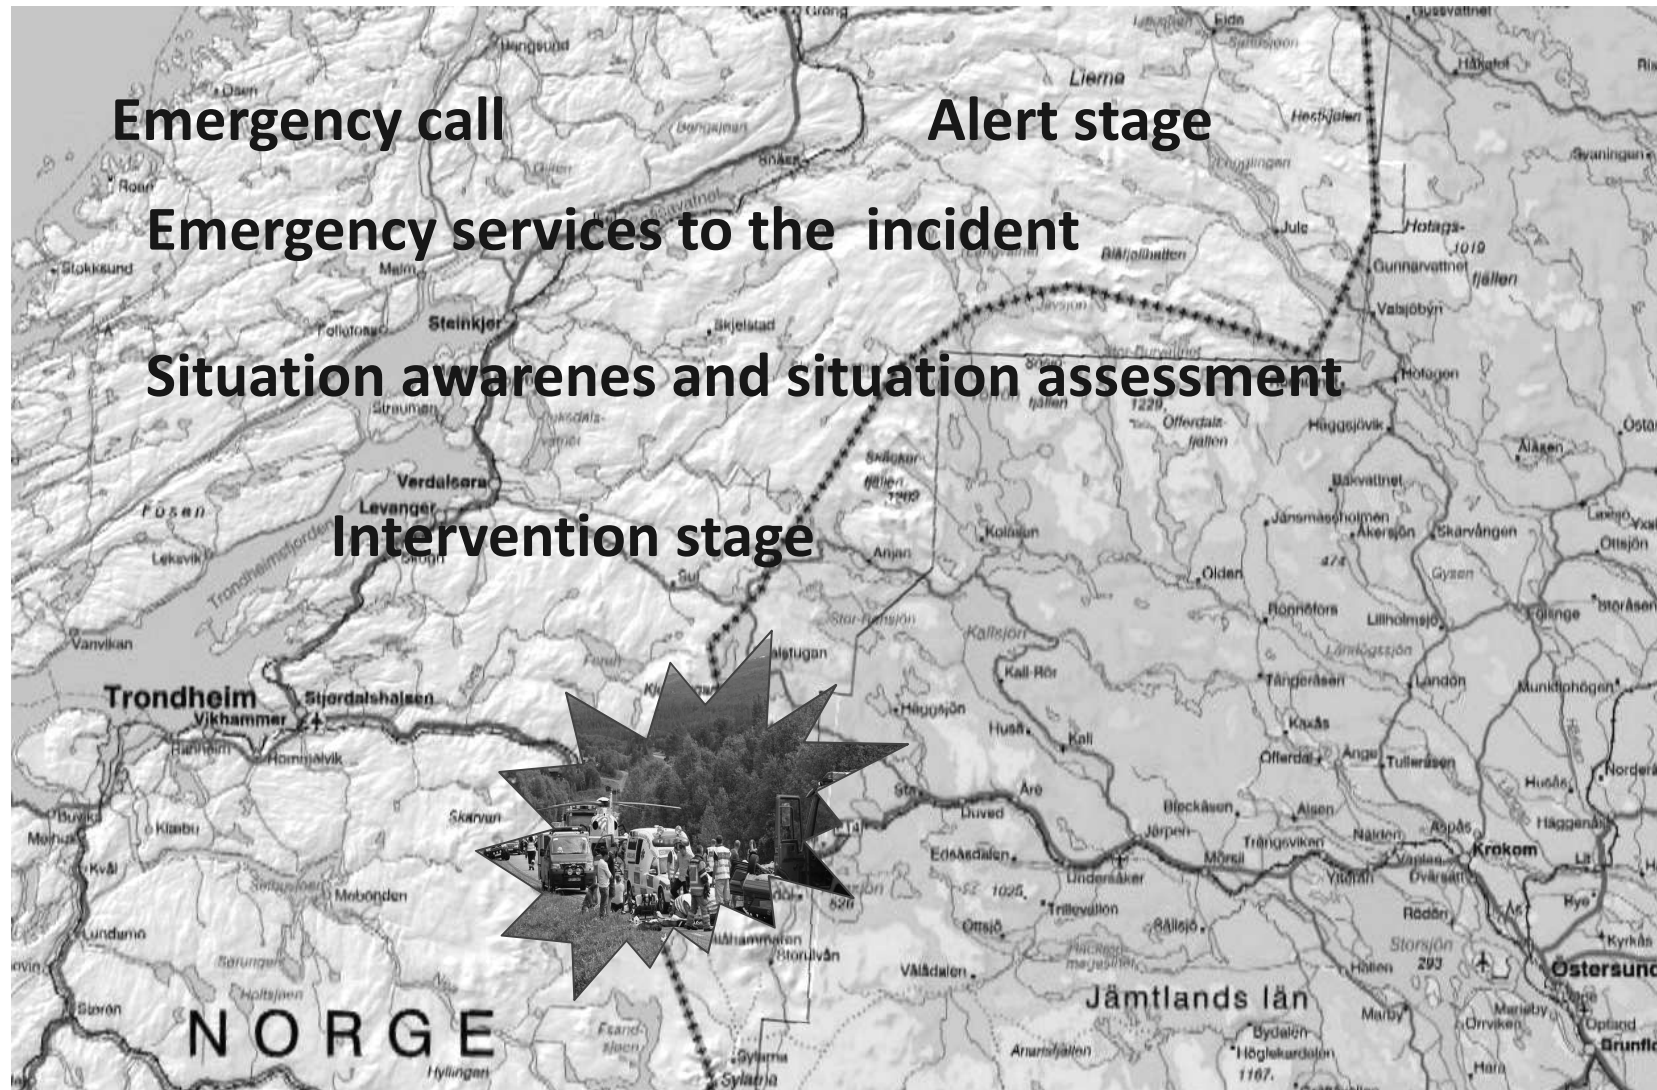

**Police Superintendent Rune Reinsborg  
North-Trondelag Police district**

- **Type:** Field exercise
- **Place:** E14, North-Trøndelag/  
Jämtland
- **Time:** November 16, 2016
- **Participants:** Police, ambulance, fire & rescue, custom, other organizations and control rooms in Norway and Sweden
- **Planning:** By end-users
- **Scenario:** Bus accident in Norway, car accident and search and rescue in Sweden - where the ISI functionality will be used
- **Training and education:** Q3 2016
- International guest will be welcome!

- Demonstration of ISI gateway functionalities (WP 4.2)
- Demonstration of migration capabilities of terminals (sw under development)
- Verification of the ISITEP procedures (WP 3.2 & 3.3)
- Demonstration of cross border collaboration guidelines in action (WP 3.3)
- Demonstrate “added value” by enabling cross border communication between emergency agencies.
- Final assessment on procedures, technology and tools, and performance evaluation
- The exercise will also be a showcase to facilitate use of ISI in other Swedish/Norwegian regions than the demonstration area.
