ISITEP
D8.3.7 – REPORT ON EXTERNAL EVENTS

Document Manager:	Federico Frosali	LDO	Editor

Programme:	Inter System Interoperability for Tetra-TetraPol Networks
Project Acronym:	ISITEP
Contract Number:	312484
Project Coordinator:	LEONARDO
SP Leader:	LDO

Document ID N°:	ISITEP_D8.3.7_20170123_V1.1	Version:	V1.1
Deliverable:	D8.3.7	Date:	23/01/2017
		Status:	Approved

Document classification	PUblic

Approval Status	
Prepared by:	Federico Frosali (LDO)
Approved by (WP Leader):	Federico Frosali (LDO)
Approved by (SP Leader):	Federico Frosali (LDO
Approved by (Coordinator)	Paolo Di Michele (LDO)
Security Approval (Advisory Board Coordinator)	Etienne Lezaack (BFP)

V1.0	18/01/2017	All	All	Final draft release
V1.1	23/01/2017	All	All	Final release

Terms and acronyms

Abbreviation	Definition
CCW	Critical Communication World
ISI	Inter System Interoperability
ISITEP	Inter System Interoperability for TETRA_TETRAPOL Networks
PSCE	Public Safety Communication Europe Forum
PPDR	Public Protection & Disaster Relief
TETRA	TErrestrial Trunked RAdio
TETRAPOL	TErrestrial Trunked Radio for POLice

Publishable extended abstract

The **I**nter **S**ystem **I**nteroperability for **TE**tra-Tetra**P**ol networks (ISITEP) project is an initiative funded within the EC 7th Framework Programme that aims to achieve a cost effective solution for Public Protection & Disaster Relief (PPDR) interoperability across Europe.

ISITEP aims to develop a global framework where emergency services and first responders share communications technology, procedures and legal agreements with the goal of improving the ability of European PPDR agencies to face natural disasters, security threats (cross border crime activities) and emergencies improving safety and security of European citizens.

During ISITEP project five major dissemination events have been organized, to present to a wider public the aims and the current results of the project, two workshops and three User Fora:

- 1st ISITEP User Forum 24th September 2014 Brussels
- 2nd ISITEP User Forum 24th September 2015 Stockholm
- 1st ISITEP Workshop 18th-19th May 2016 Brussel, during the 14th PSCE (Public Safety Communication Europe) Forum
- Final ISITEP User Forum 1st December 2016 Rome
- Final ISITEP Workshop 14th December 2016 Rome

Moreover, in occasion of each project demo a dedicated workshop, with limited public, have been organized:

- ISITEP "Police hot pursuit" Demo 1st run 26th April 2016 Kerkrade
- ISITEP "Police hot pursuit" Demo 2nd run 25th May 2016 Limburg
- ISITEP "Airplane disaster in Geneva Border" Demo 29th-30th June 2016 Geneva
- ISITEP "VIP protection services during a European summit" Demo
  21st–22nd Sept. 2016 Brussels
- ISITEP "Multi Agency" Demo 16th November 2016 Trøndela / Jämtland
- ISITEP "Joint Police Surveillance Patrol" Demo 21st December 2016 Genoa

In addition to these events, directly organized by ISITEP project partners, representatives of the Consortium also attended to a number of external public events presenting the activities performed and the results achieved by the project.

These events have been addressed to both general public and specialized public, in order to let the achievements of the project be known and, at the same time, to collect interesting feedbacks from stakeholders useful to obtain a confirmation about values and merits of ISITEP activities.

This document briefly describes the events to which ISITEP partners participated by the start of the project.

CONTENTS

1. ISITEP APPROACH TO EXTERNAL EVENTS

Dissemination, communication and exploitation activities allow to bring the project to the attention of as many relevant people as possible. Together with the ISITEP internal events, project partners participated to a number of external public events, presenting the work done and the results achieved by the project.

The main objective of this activity has been to raise awareness about the project towards any potentially interested parties and to ensure that the final outcomes of the project are communicated and exploited to a wide audience.

Thanks to the participation to external events is in fact possible to ensure direct contact with additional external parties, which might be not involved in the project and not necessarily already aware of the existence of the project and of its purposes. This allowed to reach a wide public, composed by:

- Industrial Audience

- Academic Audience

- Consortiums of other European projects

- Journalists of specialized media

- End-users

- Regulation bodies

- General public / other

The participation to external events demonstrated therefore an effective way to guarantee that the most relevant project outcomes are communicated to the widest audience possible. The direct contact to the public of conferences and other events allowed in facts the transfer of knowledge grown during the project, the sharing of technology and practical solutions, the dissemination of achieved results, the creation of awareness about the procedures and their application, the involvement of stakeholders and the dialog with end users.

The complete list of external events where ISITEP project partners participated in and presented the project can be found in following section.

2. EXTERNAL EVENTS LIST

With the aims described in previous section, some Consortium representatives attended the following public events:

Event	Date	Involved Partners	Place	Type of Audience	Size of audience
PSRG Informal European PPDR radio specialists group	25.09.13	LDO		Industry	40
Workshop 1 Norway-Sweden	24.10.13	MSB, DNK	Charlottenberg, Sweden	Other	40
PROCIV	05.11.13	LDO		Industry	60
